American Educational Life Insurance Co. - Registers With Securities and Exchange Commission-

This company, located in the Third National Bank Bidg., Nashville, Tean., filed a registration statement with the SEC on Sept. 15, 1959, covering 3,800,000 shares of class A common voting stock and 950,000 shares of class B common non-voting stock. The stock is to be offered for public sale in units of four shares of class A and one share of class B stock, at \$25 per unit. The offering is to be made on a best efforts basis by Standard Securities Corp., for which it will receive a selling commission of \$3.75 per unit.

According to the prospectus, all shares of the class B stock must be donated to Educational Foundation, Inc., for the benefit of private educational institutions designated by the individual purchasers. The company and the Foundation are said to be independent organizations; and the company has no right to participate in the determination of the Foundation's policies, except in so far as the organizers of the company have established the basic policies of the Foundation in the process of its organization.

the Foundation's policies, except in so far as the organizers of the company have established the basic policies of the Foundation in the process of its organization.

American was organized on June 22, 1959, under Tennessee law and is authorized by its charter to and upon licensing intends to engage in the business of writing life insurance policies and allied lines. It has had no previous history of operation. In an effort to provide an organized and systematic means of assisting private education, the organizers of the company have caused to be formed the separate non-profit corporation, Educational Foundation, Inc., to which the class B stock is to be donated. All cash dividends, if any, declared on such stock donated to the Foundation will be in turn transferred by the Foundation to non-profit private educational institutions.

Net proceeds to American from its stock sale will be devoted to its general purposes, that of writing insurance. The company now has outstanding 1,000 shares of class A stock and 100,000 shares of class B stock. The company was founded primarily through the efforts of Frank G. Clement, its Board Chairman, H. Wayne Hammontree, Vice-Fresident, Wendell V. Clipp, Secretary-Treasurer, and Winston M. Moore, a director. E. R. Derryberry, President, and four other individuals also participated in the organization. The organizers paid \$110,000 to the company for which they received 100,000 shares of the class A common, and options to purchase 399,000 shares of class A common, exercisable at \$5 per share. Substantially the same persons organized the underwriter.

American Electric Power Co., Inc. - Registers With Securities and Exchange Commission-

This corporation, located at 30 Church St., New York filed a registration statement with the SEC on Sept. 9, 1959, covering 1,200,000 shares of common stock, to be offered for public sale at competitive

bidding.

The company proposes to apply the proceeds of the stock sale, to the extent available, to the payment at or prior to maturity of \$52,000,000 of outstanding bank notes, due Nov. 25, 1959, and to the prepayment of short-term bank loans, any remaining balance to be added to treasury funds and used for general corporate purposes. The indebtedness to banks was incurred since Nov. 25, 1958, during which period the company made cash capital contributions to its subsidiaries aggregating \$59,250,000 in furtherance of their construction programs. Gross expenditures by subsidiaries for construction during the six months ended June 30, 1959, amounted to about \$64,000,000; and such expenditures are expected to approximate \$120,000,000 for the full year 1959 and \$100,000,000 for 1960.

The SEC has issued an order giving interested persons until Oct. 6, 1959, to request a hearing upon the common stock financing proposal of this New York holding company.—V. 190, p. 1065.

The highest sales and earnings for any third quarter and nine months in its 46-year history were reported by this company on Bept. 15.

Net income of \$17,232,130 for the nine months ended Aug. 31, 1959, which nearly equaled net income for the entire 1958 fiscal year. Tube 53% above the \$11,229,323 earned in the 1958 nine months. Bales of \$234,954,020 for the 1959 nine months increased 33% over sales of \$176,343,663 for the three quarters of 1958.

Reflecting the uptrend in demand for American-Marietta's products, earnings per common share, after provision for preferred dividends and exclusive of restricted class B common shares, equaled \$1.46 for the nine months. This compares with \$1.03 per share earned in the same period of 1958, adjusted for the recent 5-for-4 stock split. Cash flow from earnings for the nine months also reached an allitime high, totalling \$25,517,986, or \$2.19 per common share. In 1958, cash flow for the nine months was \$16,953,835.

The company's financial position at the end of the nine months was the strongest in its history. Working capital was \$76,317,326, compared to \$57,052,882 on Aug. 31, 1958, and net worth increased to \$188,138,305 from \$144,986,733 a year earlier.

A 25% increase in cash dividend income was approved for common shareowners by the directors on Sept. 15. Continuation of the 25c per share quarterly dividend rate on the split shares, represents the eleventh increase in cash dividend income for common shareowners during the ten year period since 1949. The sixty-fourth consecutive dividend on common shares was declared payable Nov. 2 to shareowners of record on Oct. 20.

American Motors Corp.—Kelvinator Sales Up 45%.—
Kelvinator major appliance sales in August jumped nearly 45% over August of last year, and automatic washers reached their highest monthly volume in the company's history, according to an announcement on Sept. 11 by H. L. Travis, Vice-President-Sales.

Automatic washers were up more than 52% over Aug. 1958, and total laundry equipment (including wringer washers and clothes dryers) was up 41%. Mr. Travis attributed the record automatic washer sales to the enthusiastic acceptance by dealers and consumers of the 1960 models introduced in July. The 1960 laundry appliance line was shortened from preceding years, enabling dealers to display and inventory the complete line. In addition, engineering and styling changes

incorporated five cycles for automatic washing and drying of a wariety of laundry loads.

Refrigerators, a consistent leader along with laundry equipment, were up 50% over August of last year.—V. 190, p. 866.

ESTIMATED CORPORATE FINANCING IN NEXT FOUR WEEKS

Out of the total listed backlog of corporate securities now waiting to enter the market to bid for available loanable funds, doubtlessly intrigued by Treasury's precedentbreaking rate, the amount of preferred and common shares and bond issues at this time with scheduled offering dates for the oncoming four-week period, Sept. 21-Oct. 16, comes to about \$340 million—down \$43 million compared to last week's

Among the significant issues in the week commencing Sept. 21 are: New England Tel. & Tel. solicitation of underwriting bids for \$45 million in debentures on Monday and, on the same day, \$7.2 million Belco Petroleum debentures and common stock underwritten by White, Weld & Co., and Goldman, Sachs & Co.; on Sept. 23, underwritten by First Boston Corp., are 200,000 shares of Harnischfeger Corp. common; \$25 million Sylvania Electric Products debentures managed by Paine, Webber, Jackson & Curtis, and Halsey, Stuart & Co. on Sept. 24; and 271,553 shares of Boston Edison Co. common with First Boston Corp. as underwriter on Sept. 25. Excluded from the projected data are Southern New England Tel. Co. rights with underwriter to be determined by competitive bidding on Sept. 21.

The data for forthcoming corporate financing picture are obtained from private and official sources by the Chronicle. The following table classifies the data in terms of equity and debt capital for each of the four projected weeks:

APOLOGY TO THE S.E.C.

A correction is owed to the economists of the Securities Exchange Commission whose data of offerings made serve as one of our useful guides in interpreting the calendar volume coming-up. It was incorrectly reported last Aug. 27 that they exclude the sale of registered foreign corporate issues sold in this country. Actually, and we should have known better, they do include the sale of such foreign issues but exclude parts of issues marketed outside the United States.

S.E.C.'s JULY FLOTATION FIGURE

The amount of corporate public offerings and private placements in July, 1959, according to the SEC came to \$521,499,000. The breakdown of this is found in the SEC's Statistical Bulletin.

The remaining three weeks of the projected period include such larger issues as: \$30 million Southern California Gas Co. bonds, \$5 million American Greetings Corp. debentures, and 229,606 shares of United Utilities common, all on Sept. 29; the Boston Edison Co. returns to the market on Sept. 30 with a \$15 million bond issue: Columbia Gas System has scheduled \$25 million debentures on Oct. 8; and Philadelphia Electric \$50 million bonds on Oct. 14.

Details of the complete financing calendar may be found in the Monday and Thursday issues of the Chronicle for the corporate as well as the noncorporate financing.

The purchaser was awarded this issue on bids opened on Aug. 10 at the Office of Alien Property, Room 664, 101 Indiana Ave., N. W. Washington, D. C. The proceeds of this issue went to the Attorney General of the United States. For further details, see V. 190, p. 562.

Artloom Industries, Inc.—Acquires Electronics Firm-

The corporation has acquired Eastern Precision Resistor Corp., an electronics manufacturing firm with three plants in Brooklyn. N. Y., it

was announced by Hyman Marcus, Chairman.

This is Artloom's third acquisition since the beginning of the year.

Last February it acquired United Metal Cabinet Corp., manufacturer of complete steel kitchens and other metal fabrications. In May,

turer of complete steel kitchens and other metal fabrications. In May, Arthoom announced the acquisition of City Iron Works of Hartford, which fabricates and erects structural steel for bridges and buildings. Mr. Marcus estimated that the acquisition of Eastern Precision Resistor Corp. will add about \$5,500,000 to bring Arthoom's total sales to \$27,000,000 for the year ending July 31, 1960. For the nine months ending April 30, 1959, Arthoom recorded sales of approximately \$8,500,000 which reflected only two months' operations of United Metal Cabinet Corp. and one month's sales of City Iron Works, Inc. The new acquisition was made entirely in exchange for convertible debentures. Present management will be retained with Martin Green, its founder, as President, Mr. Marcus stated.—V.189, p. 2778.

Astro will study the refractory metals-Under the new NASA contract, Astro will study the refractory metals-considered of critical importance to "re-entry" problems in the space program: molybdenum, tungsten, columbium, niobium and beryllium. Study of feasibility of fabrication, with development of actual fabrication methods is the contract's ultimate and early objective. The new NASA project will be aided by special facilities now being built by Astro for its new beryllium components division.

Atlas Sewing Centers, Inc.—Reports Record Earnings Sales and earnings reached new highs in the fiscal year ended May 31, 1959, according to the annual report just sent to shareholders by Leo Kern, Chairman, and Herbert Kern, President.

Atlas and its subsidiaries—retailers of sewing machines and vacuum cleaners—had consolidated net sales of \$17,605,002, a gain of 34% over sales of \$13,098,665 in the year ended May 31, 1958. Net income last year was \$936,243, equivalent to \$1.25 per share on the 746.924 shares of common stock outstanding at the end of the year. This was 72% higher than net income of \$544,904 the year before, equal to 73 cents per share on the same common share basis.

During the year, the number of outstanding common shares rose

During the year, the number of outstanding common shares rose to 746,924 from 605,040, due principally to the conversion of convertible subordinated debentures. More than 95% of the bonds have been converted and the outstanding balance will either be converted or called before the end of 1960 according to the report.

Current assets at May 31, 1959 totaled \$17,155,257 and current liabilities were \$7,447,939. Comparable figures the year before were \$12,736,001 and \$7,161,346, respectively.

Simultaneous with a \$3,000,000 insurance company loan, the company converted its bank borrowings to unsecured short term loans by promissory notes. A group of banks has extended credit lines totaling more than \$9,000,000, of which about \$6,000,000 were utilized at year-end, according to the report.—V. 196, p. 46.

Automation-Engineering Corp., Carson City, Nev. Files With Securities and Exchange Commission-

The corporation on Sept. 4 filed a letter of notification with the SEC covering 150,000 shares of capital stock (par \$1.50) to be offered at \$2 per share, without underwriting. The proceeds are to be used for working capital.-V. 182. p. 1218.

Axe-Templeton Growth Fund of Canada, Ltd.-Stock Split Approved-

The shareholders have approved a four-for-one stock split and reduction of par value from \$1 to 25 cents a share, it was announced by the management. They have also voted to increase the fund's authorized capital stock

from 1,500,000 to 10,000,000 shares. It is expected the certificates for the new shares will be delivered early in September.

The net asset value of the fund's shares was \$31.42 (United States dollars) at the close of business June 30.

Axe-Templeton Growth Fund of Canada became an open-end investment company Aug. 30, 1957, when Axe-Templeton Management, Ltd., was named investment adviser and shareholders approved the continuous offering of shares. At the same time Axe Securities Corporation became general distributor of the fund's shares and started offering them to the public through investment dealers in December, 1957. Total assets of the fund amounted to \$4,266,000 on June 30, 1959.—V. 190, p. 151.

The board of directors on Sept. 3 announced the election of Alanson W. Parkes, Jr. to the Presidency of the company. He will assume his new office Oct. 1.

The company is a 26 year old nationally known manufacturer of electronic test equipment. Mr. Parkes has been associated with Aircraft Radio Corp., also of Boonton, for 30 years. During the past 10 years he has been vice-President in charge of sales.

Frank Zayac has been elected to the post of Executive Vice-President and General Manager of Ballantine Laboratories.

Bank Stock Corp. of Milwaukee-Registers With SEC

This corporation, located at 721 North Water St., Milwaukee, Wis., on Sept. 11 filed a registration statement with the SEC covering 605,000 shares of its common stock. The company proposes to offer this stock in exchange for shares of the common stock of Marshall & Ilsley Bank and capital stock of Northern Bank, on the basis of two shares of company stock for each share of Marshall & Ilsley stock, and 10½ shares of company stock for each share of Northern Bank stock. The exchange offer is conditioned upon the company acquiring stock. The exchange offer is conditioned upon the company acquiring by exchange not less than 80% of the outstanding shares of each of the other banks, which are also located in Milwaukee. According to the prospectus, the respective boards of directors of the two banks in January 1959 authorized the creation of a bank holding company; and, accordingly, Bank Stock Corp. of Milwaukee was formed. The Federal Reserve Board recently granted approval of the acquisition by the holding company of voting stock of the two banks, on condition that at least 80% of the voting stock of the two banks is acquired by Dec. 3, 1959. The primary reason for organization of the holding company to act as a holding company and controlling stock-holder of banks "is to furnish the banks with certain types of management services more economically and efficiently than they can agement services more economically and efficiently than they can provide for themselves on an individual basis." The prospectus lists as President of the new company A. S. Puelicher, who is Board Chairman of Marshall & Ilsley Bank.

Bankers Management Corp., Houston, Tex.-Files With Securities and Exchange Commission-

The corporation on Sept. 10 filed a letter of notification with the SEC covering 300,000 shares of common stock (par 25 cents) to be offered at \$1 per share, through Daggett Securities, Inc., Newark, N. J. The proceeds are to be used for working capital.—V. 187, p. 773.

Belding Heminway Co., Inc .- Tenders Accepted-

M. Hausman & Son, who recently made a tender offer for 45,000 shares of common stock of Belding Heminiway Co., Inc., have accepted all shares tendered at 17½ or less. The offer expired at 5 p.m. July 31, 1959.

Bemis Bro. Bag Co .- To Construct New Plant-

-V. 190, p. 666.

Plans for the construction of a new manufacturing plant in the San Francisco Bay area were announced on Sept. 10 by this company. The plant—a completely modern one-story facility with 155,000 sq. ft. of office and production space—will be erected on a 17-acre site in the southeastern bay area at Newark, Calif. Construction will begin prior to the end of this year, and it is expected that the plant will be completed by late spring or early summer of 1960.

F. G. Bemis, President of the company, said that the new facility would be one of the key production units for the company on the West Coast and will be devoted to the manufacture of burlap, cotton, open mesh, waterproof laminated-textile, multiwall and other paper bags.—V. 189, p. 2563.

Bendix Aviation Corp.-First Airborne Weather Lab.

Flight tests of the first flying weather laboratory designed to gather and analyze global weather data for improved forecasting have been completed, this corporation and Boeing Airplane Co. announced on Sept. 2.

Developed by an industrial team headed by Bendix, the weather project, named AN/AMQ-15 Air Weather Reconnaissance System, was described as the most significant advance in meteorology since the

government's weather stations were first linked by the telegraph.

"A system of such airborne weather stations would probe the atmosphere over the oceans and the Polar regions—in areas where the weather is being made," Dr. Russell D. O'Neal, General Manager of Bendix Systems Division said. "It would provide a synoptic or widearea, three-dimensional and continuous picture of the weather. The system would also give science an insight into causes as well as the effects of weather." effects of weather

The flying weather laboratory apparatus was installed and test flown in four-jet Boeing 707 prototype aircraft especially modified for the program. Filled with electronic sensing and computing devices, the prototype flew some 7,000 miles of routes at altitudes up to 45,000 feet and close to the speed of sound

Develops Mobile Computer-

A computer on wheels has been devised so the world's fastest bomber can have its complex "power thinking" control system checked out

right on the flight line.

The computer-tester, the first of its kind ever developed for any supersonic aircraft, can be rolled alongside the Air Force's Convair B-58 Hustler bomber and in approximately 90 minutes will make 750 tests (one test every 7 seconds) of the 1300-mph-plus bomber's electronic "brain" and power control system.

Engineers at corporation's eclipse-Pioneer division, where the Hustler controls as well as the new test units were developed said the com-

the B-58 control system which has been described as "the most amazing combination of electronic, electro-mechanical and hydraulic devices in any manned aircraft."—V. 190, p. 967.

Biochemical Procedures, Inc.—Registers With SEC—
This corporation, located at 12020 Chandler Blvd., Los Angeles, Calif., filed a registration statement with the SEC on Sept. 9, 1959, covering 100,000 shares of its common stock, to be offered for public sale through Shields & Co. The public offering price and underwriting terms are to be supplied by amendment. Two of the present stockholders have agreed to sell the underwriter options to purchase an aggregate of 25,000 outstanding shares, the options to be sold at a price of 25c per optioned share and being exercisable at the public offering price of the company's offering.

The company was organized under Delaware law in July 1959 and acquired in September 1959 all the outstanding stocks of seven California corporations in exchange for shares of its own stock (one such company was dissolved and its assets acquired by the company). The company operates a national medical reference laboratory in Los Angeles and six clinical laboratories in hospitals in the Los Angeles area. Both have as their chief function the testing of body fluids, the analyses being performed to aid physicians in the diagnosis of disease and for related purposes. The company now has outstanding 160,000 common shares in addition to certain indebtedness, of which S. Louis Gaines, President, and Victor Aleck, Vice-President and Treasurer, own 78,159 and 78,158 shares, respectively (48.8% each).

The company has contracted to acquire for \$50,000 cash, all the issued and outstanding stock of Uni-Tech Chemical Mig. Co., which formulates and manaufactures a line of chemical laboratory reagents, standards, stains and solutions. Upon such acquisition, it will enter-

The prospectus further indicates that \$23,100 was realized through the sale of this stock.

Bowser, Inc.—Dividend Plan Not Approved—

The shareholders have failed to approve a proposal for clearing dividend arrearages on the preferred stock at a special meeting held earlier this month.

Terms of the proposal called for the issuance of subordinated notes in exchange for outstanding preferred stock, each share of which has \$12.90 of accrued and unpaid dividends. To be effective, the plan had to be approved by a majority of both common and preferred shareholders.

Sufficient common stock was represented at the meeting to approve the refinancing but "well under" a majority of the 194,062 outstanding shares of preferred stock were present, according to a spokesman. He added that management has no present plans for ubmitting a substitute plan to shareholders.—V. 189, p. 2135.

Champion Paper & Fibre Co.-Plant in Brazil-

Champion Paper & Fibre Co.—Plant in Brazil—

Robert L. Garner, President of the International Finance Corporation (IFC), announced on Sept. 15 that the corporation, with participations by the Deltec Corp., of New York, the Chemical International Finance, Ltd., and the Bankers International Corp., has agreed to invest \$4,000,000 in Champion Celulose S.A., a Brazilian corporation, to help finance the construction and operation of a bleached sulfate wood pulp mill in Brazil. Of the \$4,000,000 invested, \$1,050,000 will come from IFC, \$2,000,000 from Deltec, \$750,000 from Chemical, an affiliate of the Chemical Corn Exchange Bank of New York, and \$200,000 from Bankers, an affiliate of the Bankers Trust Co. of New York. Champion Paper & Fibre Co. of Hamilton, Ohio, controls Champion Celulose and will furnish the management.

The Champion Celulose plant, located at Mogi Guacu in the State of Sao Paulo, is now under construction and is expected to start operations late this year. The rated production capacity of the plant is 145 short tons of pulp per day. Forest plantations are being acquired and developed to support this production. Pulpwood for the plant will be primarily eucalyptus and the pulp produced will be sold to Brazilian paper manufacturers for use primarily in the production of white papers such as printing and writing grades.

Champion is sending technicians and other trained personnel to Brazil to supervise the initial operations of Champion Celulose. Brazilian personnel are being trained to assume increasing responsibility for the plant's operations.

The total cost of the project is about \$20,000,000. The \$4,000,000 investment will assist in financing equipment and construction and provide working capital. It will be represented by unsecured notes maturing by 1969 and bearing dollar interest at 7% and additional cruzeiro interest contingent on profits. Under an agreement with certain shareholders, there will also be an option on common stock of Champion Celulose. Additional financing is being provided b

development bank, in the form of a term loan of Cr\$150,000,600.

The IFC commitment is subject to completion of legal formalities and the formal approval of Banco Nacional do Desenvolvimento Economico.-V. 189, p. 807.

Diamond Gardner Corp.—Merger Approved—

The shareowners of this corporation and of The United States Printing & Lithograph Co. on Sept. 14 approved a plan to merge the two companies, according to a joint announcement made by Robert G. Fairburn, President of Diamond, and William H. Walters, U. S. Printing President. Mr. Fairburn will be Chairman of the Board and Mr. Walters President of the new company.

The shareowners also approved Diamond National Corp. as the new name of the expanded company. The Gardner Board & Carton Co., Middletown, Ohio, merged with The Diamond Match Co. in 1957 and the company became Diamond Gardner Corp. Now, following the merger with U. S. Printing, the name is being changed to Diamond National Corp. The new name reflects the national character and broad base of the merged company's product line, the joint statement indicated.

The merger involves the exchange of 2.7 shares of Diamond Gardner common stock for each of the 336,000 outstanding U. S. Printing & Lithograph common shares. This calls for the issuance of 907,200 Diamond shares with a total value of about \$30,000,000. Diamond shareowners voted to increase the number of authorized common shares from 4,000,000 to 10,000,000.

After the merger Diamond National Corp. will have 450,000 shares of \$1.50 cumulative preferred stock and 4,437,512 shares of common stock outstanding.—V. 190, p. 49.

Eaton Manufacturing Co.—Plant Expansion Announced

The company's Pump Division in Marshall, Mich., has developed and is producing a controlled slip differential for passenger cars and trucks, according to F. I. Goodrich, Vice-President-Administrative. At the same time he announced plans for expanding the facilities of the division at an estimated cost of \$450,000 to provide the necessary space for production of this differential and for future new products.

The new differential is being produced for one of the "Big Three" auto companies to be offered as optional equipment on a light truck in its 1960 line, Mr. Goodrich said. Other manufacturers are testing the device in their vehicles.

The expansion plans at the Pump Division call for a new building

adjoining the present plant in Marshall to be used as a combination research and development laboratory and office building. It will permit an increase in research activities and release space for manufacturing operations that is currently used for office and engineer-

ing work.

The building will be approximately 24,000 square feet and will increase the plant area by about 15%.—V. 188, p. 2741.

Federal Uranium Corp.—New Silver Ore Body—
This corporation has developed a substantial silver ore body of commercial grade at the Conjecture Mine in Northern Idaho, share-holders were told on Sept. 11.

Mels W. Stalheim, Chairman of the Board and Chief Executive Officer, said that Federal had spent two years and a substantial sumin developing to date and "we are well pleased with the results."

Development work will continue on a three-shift-a-day basis until November when work will be limited to one shift a day during the winter. Construction of a mill to process the ore is contemplated in the Spring, Mr. Stalheim said. Development work now in progress will cenable the company to evaluate more closely the size and value of the mine, he said. "In any case we now have a commercial silver mine," Mr. Stalheim said.

Under terms of an agreement with the Conjecture Mines, Inc., Pederal will first recover all expenditures as operator of the property and then will share profits with Conjecture Mines, Inc., Mr. Stalheim also told shareholders:

(1) Federal has joined with three other firms in a beryllium mining and milling venture and that a subsidiary formed by the companies, Dynamic Metals Corp., has obtained exclusive right to a flotation reagent which seemingly has the specific ability to float beryl free and clear of other materials.

(2) A uranium processing mill being constructed in the Gas Hills area by Federal, Radorock and Gas Hills Uranium Corp. is more than two-thirds complete and should be on stream in November.—V. 189,

General Motors Corp.—Producing Corvair Models—

Chevrolet has produced 16,000 models of its new Corvair, and expects to have manufactured a total of 30,000 by the time the cars are introduced to the public on Oct. 2.

This was revealed on Sept. 10 by Edward N. Cole, General Manager of the division, on the eve of Chevrolet's national preview of its 1960 lineup of cars and trucks.

Current production of the Corvairs has been primarily at the Willow Run, Mich., plant which started July 6. Assembly of Corvairs also started recently at Kansas City, Mo., amd Oakland, Calif., plants. On Sept. 14, production of 1960. conventional passenger car models began at all Chevrolet assembly plants. Truck production began in Chevrolet plants on Aug. 31.

Mr. Cole also revealed that advance orders for the Corvair are already over the 15,000 mark and are expected to reach at least 50,000 by Oct. 5, following the public announcement week-end.

Mr. Cole said current advance orders include 5,000 from national fleet users, such as taxi cab companies, rental and leasing firms, public utilities and a variety of private business concerns. One leasing concern ordered more than 500 as an "initial" order. One east coast taxi company ordered 110 Corvairs.

The remainder of the advance orders are from Chvrolet dealers.

The Corvair will be powered by an air-cooled, six-cylinder horizontally opposed rear engine made largely of aluminum. The car will be the cooled by the cooled by the cooled by the cooled by the state of the corresponding to the cooled by the coo

Gob Shops of America, Inc.—Stock Hearing Scheduled By Securities and Exchange Commission-

By Securities and Exchange Commission—

The SEC has scheduled a hearing for Oct. 19, 1959, in its New York Regional Office, in the proceedings under the Securities Exchange Act of 1934 to determine whether the Federal Securities Laws have been violated by Bruns, Nordeman & Co., 52 Wall St., New York, and, if so, whether its broker-dealer registration should be revoked and/or whether it should be suspended from membership in certain national securities exchanges or the securities dealers association.

In its order of Aug. 25, 1959, authorizing the proceedings, the Commission charged that, in connection with its purchase and sale of the common stock of Gob Shops of America, Inc., Bruns, Nordeman & Co. violated the anti-fraud and anti-manipulative provisions of the laws and "engaged in acts, practices and a course of business which operated as a fraud and deceit upon certain persons."

At the Oct. 19th hearing, inquiry will be conducted into the foregoing and related matters for the purpose of determining whether the laws and Commission rules thereunder were violated.—V. 190, p. 871.

(W. R.) Grace & Co.-McNeil Grace Line President-

J. Peter Grace, President of this company, on Sept. 15 announced that Wilfred J. McNeil, who has resigned as Assistant Secretary of Defense, will join the Grace organization shortly. Mr. McNeil will become President of Grace Line Inc., and a director of W. R. Grace & Co. of which the steamship company is a wholly-owned subsidiary.

First Half Profits Up 78 %-

W. R. Grace & Co. on Sept. 18 reperted net earnings per common share of \$1.51 for the first half of 1959, compared with 85 cents in the same peried of 1958. The company cited continued growth in chemical profits as the major cause of the increased earnings, with substantially better results from South American operations also con-

Net income was \$7,247,000 as compared with \$4,219,000 for the first six months of 1958, and sales and operating revenues were \$236,675,000 as compared with \$220,248,000.

Including the company's equity in earnings in excess of dividends received from non-consolidated subsidiaries and 50%-owned companies, total earnings per common share for the six month period amounted to \$1.73 this year against \$1.06 in 1958.

Commenting on operations, J. Peter Grace, President, stated "Almost all product lines contributed to the increase in chemical earnings, which continued the upward trend reported for the year 1958."

Mr. Grace reported to stockholders that the completion of a new plant at Owensboro, Ky., has provided additional capacity for battery separators and various synthetic rubbers and polymers, and that new facilities installed at Memphis have expanded the company's urea output. The report also noted that the new Hatco Chemical Division is a leading producer of esters, used in the manufacture of lubricants for jet engines as well as in the processing of vinyl resins and synthetic rubbers.

The report noted further that sales of the company's high density polyethylene were at a much higher rate than in 1956, and that results have benefited accordingly although the break-even level has not yet been reached.

results have benefited accordingly although the break-even level has not yet been reached.

First half earnings of Grace Line were somewhat below those of 1958 because of continued low cargo offerings and the start-up costs of the new Great Lakes-Caribbean Service.

The level of business activity in the Latin American countries where the company operates has improved and foreign exchange rates have been more stable, largely as a result of sound economic measures taken by the governments of those countries. The company's expansion in chemicals and paper in Latin America is proceeding as planned.

Mr. Grece pointed out that, in general, the outlook for the balance of the year 1959 continues to be favorable.—V. 190, p. 670.

Inter-Island Resorts, Ltd.—Registers With SEC—
This corporation, located at 305 Royal Hawaiian Ave., Honolulu, Hawaii, filed a registration statement with the SEC on Sept. 10, 1959, covering 99,000 shares of common stock. The company proposes to offer this stock for sale to its stockholders and to the general public, the offering to stockholders to be at a fixed price (to be supplied by amendment) and to the public "at the prevailing market price." No underwriting is involved. The offering to stockholders is to be at the rate of one new share for each four shares held of record Oct. 10, 1959. The company and its subsidiaries are primarily engaged in the tourist business in Hawaii. It owns and operates three hotels; and it also operates a fourth hotel, leased from a wholly-owned subsidiary. A subsidiary also conducts tours on the Island. The company now has outstanding 396,000 common shares and certain indebtedness. Management officials own 65.63% of the outstanding stock.

The prospectus further indicates that the company plans to construct a new hotel at Kalapaki Bay on the Island of Kauai, to be completed in 1960. This expansion program calls for capital expenditures of about \$2,006,216 during 1959 and 1960. In addition, the company has out-

\$2,006,216 during 1959 and 1960. In addition, the company has outstanding \$335,000 of bank loans which it plans to repay. Of this latter figure, \$235,770 was used to make the initial payment for the site of the new hotel, acquired for \$813,000.

International Resistance Co.-New President-

The appointment of Walter Ware Slocum as President of this company was announced on Sept. 10 by Charles Weyl, former President who now becomes Chairman of the Board. Mr. Weyl in turn succeeds Ernest Searing, who retires at the age of 82.

Mr. Slocum was formerly associated with Daystrom, Inc., where he headed several divisions at various times, and was also Vice-President in Charge of Operations for the corporation. Before joining Daystrom, Mr. Slocum was for 10 years President of his own firm of management consultants, W. W. Slocum & Co., of Newark, N. J. His firm served such clients as Allied Chemical, Bendix Aviation, Kearfott Co., Reaction Motors, and several bureaus of the U. S. Navy.

International Telephone & Telegraph Corp.—Contract

The Air Force has awarded a \$439,312 contract to this corporation's service organization, Federal Electric Corp., Paramus, N. J. The contract, a renewal, is for providing services and supplies required for the complete operation and maintenance of the Spain-to-Morocco Tropospheric Scatter Communications System (Project Senorita) during the fiscal year, 1960. Tropospheric scatter transmission, also called over-the-horizon radio, is a method of transmitting microwave radio signals by literally bouncing them off the tropospheric layer of the atmosphere. The reflected signals may be picked up beyond the horizon by special radio receiving apparatus.

To Move Headquarters Office in 1960-

This corporation will move its headquarters offices to 320 Park Avenue, New York, N. Y., late in 1960, it is announced. The 33-story building, now under construction, will occupy the westerly blockfront

between 50th and 51st Streets.

H. S. Geneen, President, said that the directors had formally approved management's plans to lease, initially, eight floors and the penthouse for a total of approximately 180,000 square feet. Uris Brothers, builders and owners, said ITT will be the principal tenant and that the building will be named for the telecommunications and electronics company.

Interstate Department Stores, Inc.—Earnings Improve.

Net sales rose to \$21,944,983 for the quarter that ended July 31, from \$15,282,200 for the same quarter a year ago. For the six month period the increase was to \$36,989,634 from \$28,381,720 the prior year. Sol W. Cantor, President, said that the increase was due both to a general improvement in operations and to the acquisition of White Front Stores, Inc., in April of the current year.

Net earnings for the quarter rose to \$322,827 from \$42,879 a year

Net earnings for the quarter rose to \$322,827 from \$42,879 a year ago. On a share basis earnings were 95 cents a share for the current July 31 period, based on the 339,155 shares presently outstanding. This compares with net earnings a share of 13 cents in the 1958 quarter, on the 314,100 shares then outstanding. The market improvement in net earnings almost completely offset the company's traditional first quarter loss, Mr. Cantor reported. For the six months the loss was reduced to \$15,449 which compares with a loss of \$451,344 for the same six month period a year ago. On a share basis, the loss was reduced to five cents for the first half this year from \$1.44 for the comparable period last year.—V. 190, p. 261.

Johns-Manville Corp.-To Expand Fiber Glass Manufacturing Capacity-

This corporation has allocated funds for expansion of production facilities at Waterville, Ohio, and Parkersburg, Va., increasing capacity for manufacturing fiber glass yarns and roving.

F. H. May, Jr., Vice-President and General Manager of Johns-Manville Piber Glass Inc., said the expansion at Waterville and Parkersburg should be completed at both locations by early 1960. In addition, he said, studies are being accelerated on the need for a new southern textile fiber glass facility. Also under study are plans to expand fiber glass production in Canada to meet increasing demands for fiber glass insulations.

Expansion of fiber glass manufacturing capacity by Johns-Manville

Expansion of fiber glass manufacturing capacity by Johns-Manville has been proceeding almost continuously since Dec. 31, 1958, when the company acquired the former L. O. F. Glass Fibers Co. of Toledowith six plants and a Technical Center. With completion of the current expansion program, Johns-Manville will have increased total fiber glass productive capacity by 50% since the date of acquisition, officials said.

officials said.

According to D. L. Hinmon, Vice-President and General Manager of the J-M Industrial Insulations Division, which distributes J-M glass textiles, expansion of capacity at the Waterville and Parkersburg plants is required by present and anticipated demand for fiber glass yarn and roving in all end-product markets.

"This is particularly true in the field of fiber glass reinforced plastics," he said. "Requirements by industry using fiber glass as a reinforcing material have increased steadily this year. This includes expecially manufacturers of hosts, marine accessories, structural papels.

especially manufacturers of boats, marine accessories, structural panels, industrial containers and materials handling equipment. Use of premix filter glass molding compounds has also grown tremendously" he said.—V. 190, pp. 360 and 872.

Mercast Corp.—Perfects New Casting Method—

The corporation revealed on Sept. 8 that its research and develop-ment engineers have perfected a new method of casting metal in a "shell," with a unique ceramic mixture which will permit faster casting and lower cost for many aircraft, missile and electronic components.

The company announcement pointed out that many of these components must now be machined, at considerable expense in time and

"This third process advances the art of precision foundry techniques, which now are confined mainly to the two methods utilizing frozen mercury and lost-wax." a company spokesman explained. He added that the ceramic shell, or "Ceramercast" method, combines the best techniques of both the lost-wax and frozen mercury processes. It permits the casting of configurations too large and too complicated for lost-wax molds, and makes these economically and technically feasible. It also assures important metallurgical properties to castings.

for lost-way moids, and makes these economically and technically feasible. It also assures important metallurgical properties to castings. The corporation introduced the frozen mercury process in the industry in 1947 on a production basis and besides its own plant in LaVerne, has licensees in eastern United States and Great Britain using this patented method for close-tolerance, precision casting.—V. 190, p. 262.

The completion of this corporation's seventh investment, a \$287,500 purchase of convertible debentures and common stock of Washington Machine & Tool Works, Inc., of Minneapolis, was announced by Midwest Technical President, Arnold J. Ryden, Jr., on Sept. 9. The two-part investment involves the purchase from the company of \$200,000 in 6% five-year debentures convertible to common stock at \$2.75 per

in 6% five-year debentures convertible to common stock at \$2.75 per ahare and the direct purchase privately of 50,000 shares of Washington Machine & Tool common stock.

Washington Machine & Tool was formed in Minneapolis in 1950. Since that time it has experienced steady growth and is today one of the nation's leading suppliers of high precision gear-trains and electro-mechanical instrument assemblies and products.

Currently, the company employs approximately 200 people and operates plants in suburban Minneapolis and in Orono, Minn. The company has just completed a 13,000-square-foot addition to its St. Louis Park plant which is a controlled-environment manufacturing and assembly area devoted to the manufacture of several new types of aircraft and missile instruments.

missile instruments. Late last year Washington Machine & Tool became a publicly-owned company with the sale to the public of 150,000 shares of its stock at \$1.15 per share. Since that time the stock has traded actively in the local over-the-counter market and is presently trading in the

the local over-the-counter market and is presently trading in the \$3 to \$3.50 range.

With the company's growth and diversification, Washington Machine & Tool founder and chairman of the board Reginald S. Lanier has been working to broaden and strengthen the company's management. Recent steps in this direction include the addition of Bernard E. Kinnery as treasurer and, most recently, Eugene W. Kulesh, a former Hughes Aircraft Co. Vice-President, became President and General Manager. With the completion of the new financing, Mr. Ryden joins the board of directors.

The capital raised in the financing program will be used to reduce outstanding bank loans and to provide additional working capital necessary for the company's expanding production and product programs.—V. 190, p. 1072.

Mineo Mining, Inc., Albuquereque, N. M .- Files-

The corporation on Sept. 3 filed a letter of notification with the SEC covering 240,000 shares of common stock (par \$1) to be offered at \$1.25 per share, without underwriting.

The proceeds are to be used for expenses incidental to mining operations.

Minneapolis-Honeywell Regulator Co.-Contract-

This company on Sept. 14 announced receipt of a \$2,600,000 contract to produce miniaturized inertial guidance systems for Army surveillance drones being built by Republic Aviation Corp.

The jet-powered drone is intended for battlefield surveillance, mapping and target pinpointing at distances in excess of 100 miles behind

The inertial guidance units, in conjunction with an airborne computer, will be able to guide the drone over several target areas on each flight without radio or radar commands and return the drone to safety." according to Melvin P. Fedders, General Manager of Honeywell's Aeronautical Division inertial guidance plant in St. Petersburg, Fla., where the world will be done.

In addition to directing the flight path, Mr. Fedders explained, the inertial navigation units will keep the drone "informed" of its location and the computer aims the drone's sensing equipment such as infrared and radar.

The drone's self-navigating "brain" will be a variation of Honeywell's "MIG" (miniature integrating gyro) inertial guidance system, smallest and lightest un-aided inertial system yet devised by industry, Mr. Fedders said.

Because the guidance system is completely self-contained and operates without signals from the ground, the drone will be able to carry out its mission without being subject to enemy countermeasures or famming, he added

The contract was awarded jointly by the Army Signal Corps Research of Development Laboratories, Fort Monmouth, N. J., and Republic's lissile Systems Division, Mineola, Long Island, N. Y. Designated by he Army Signal Corps as AM/USD-4, the drone is known as the

New York, New Haven & Hartford RR. - ICC Guaranty of New Haven Loans Approved Under Modified Conditions-

The Interstate Commerce Commission on Sept. 16 issued a supplemental report and order in the three applications for loan guaranties of this company in Finance Docket Nos. 20372, 20397, and 20398. The

of this company in Finance Docket Nos. 20372, 20397, and 20398. The supplemental report modifies in certain respects the findings made in the Commission's report in Finance Docket Nos. 20372 and 20398 dated March 25, 1959.

Approval of a guaranty to the Second National Bank of New Haven was made in Finance Docket No. 20398. The proceeds of the proposed \$1,500,000 loan would be used to finance the construction by the New Haven of certain shop facilities at New Haven. Conn., or to reimburse the New Haven for expenditures made in connection therewith

reimburse the New Haven for expenditures made in connection therewith.

Security for the proposed loan would be the assignment by the New Haven of its equity in the collateral securing two loans made to the New Haven to restore the damage occasioned by severe floods in 1955.

The Commission modified its findings in the prior report in Finance Docket No. 20372 so as to embrace the financing of 30 new diesel-electric locomotives (in lieu of 30 locomotives of the same general type heretofore delivered) in the amount of \$8,159,400, and deferred action on the application pending completion of the application as to the rate of interest and the lender parties and acceptance by the New Haven of the modified terms and conditions.

In Finance Docket No. 20397, in which the New Haven seeks the guaranty of the financing of the acquisition of certain maintenance-of-way equipment and machinery at a cost of \$500,000, the Commission made certain of the findings required by the act but deferred final action pending the furnishing of information as to the maximum interest rate and modification of a proposed conditional sale agreement.—V. 190, p. 975.

Northern Illinois Gas Co.-Gas Space Heating-

Northern Illinois Gas Co.—Gas Space Heating—

This company on Sept. 9 asked the Illinois Commerce Commission for permission to authorize gas space heating for up to 20,000 existing single-family dwellings. ("Existing" homes are those occupied when application for gua heat is made.)

In a petition filed Sept. 9, NI-Gas said a survey showed that not all of the new homes and businesses authorized in May and June to use gas for heating will complete their installations by mid-winter. Thus, there will be a limited quantity of gas available to take care of existing single-family houses applying for gas heat after May 31, 1959.

NI-Gas released 41,500 authorizations to single-family dwellings on May 4 based on the additional daily supply of 50 million cubic feet of natural gas from Northern Natural Gas Co. slated to start this October. On June 24 utility began mailing out 65,000 authorizations when assurance was received that Midwestern Gas. Transmission Co. would deliver 60 million cubic feet per day by the end of the year.

The latter release cleared the waiting list of single-family homes to May 31, 1959. It also authorized gas heat to all new homes to be completed by the end of the year, and made natural gas available for the first time on a limited basis to multi-unit residences, schools, churches, municipal buildings, and commercial and industrial estab-

homes to be authorized would have 12 months in which to convert heating equipment to natural gas. When all installations have been made, NI-Gas expects to be heating about 400,000 homes in its 20-county service area in northern Illinois.

H. A. Diekmann, Vice-President of Northern Illinois Gas Co., emphasized that all gas heat applicants must receive written authorization from NI-Gas before installing equipment.—V. 190, p. 158.

Northern Insurance Co. of N. Y.—Registers With SEC

This company, located at 83 Maiden Lane, New York, filed a registration statement with the SEC on Sept. 10, 1959, covering 56,000 shares of capital stock. Northern proposes to offer to exchange these shares of the capital stock of Maine Bonding & Casualty Co. at the rate of 56/100ths of a share of Northern for each share Maine stock, The exchange offer will expire at the close of business on Dec. 31, 1959, provided that at least 80,000 shares of Maine stock have been tendered for exchange prior to the close of business Nov. 9, 1959. In the event less than 80,000 shares of Maine stock are tendered prior to the close of business Nov. 9, 1959, no shares will be exchanged and all shares of Maine stock will be returned to the tendering stock-holders.—V. 190, p. 774.

ment with the SEC on Sept. 9, 1959, covering 150,000 shares of common stock, to be offered for public sale at \$5 per share. The offering is to be made on a best efforts basis by Alkow & Co., Inc., for which a 75c per share commission is to be paid. If the underwriter sells at least 115,000 shares within 21 days after the effective date of the registration statement, it will be entitled to receive six-year options to purchase 6,250 shares, with additional options for 3,125 shares each upon sale of 132,500 and 150,000 shares, respectively, at prices commencing at \$5.50 per share, and to receive \$12,500 for expenses. The company was organized in April 1959 to engage in suburban real estate development; and it intends to act primarily as a community developer of unimproved acreage in New York City suburban areas. Alkhough it has acquired or is under contract to acquire about 634 acres of vacant, unimproved land in Westchester, Putnam and Dutchess Counties, N. Y., it has not yet commenced substantial operations. Its function will be to develop such acreage to the point at which home-builders and builders of commercial improvements can purchase parcels of property from the company in fully developed condition and proceeds directly to home and commercial construction, Of the net proceeds of the stock sale, \$170,000 will be applied to the cash required to close title to the Baldwin Property in Putnam County at the Westchester border; \$50,574 will be applied to meet mortgage installments of principal and \$29,387 will be applied to interest during the first year of operations. Part of the proceeds also will be used to pay carrying charges, including taxes for its various properties, which are estimated at \$9,200.

The company now has outstanding 63,689 common shares (and options for the purchase of 162,500 by company officials). John E. Marqusee is listed as President. Directors and officers own 42,042 shares (67.7%) of the outstanding stock. Part of the outstanding stock was issued in exchange for properties.

Oil Recovery Corp.—Registers With SEC

This corporation, located at 405 Lexington Ave., New York, filed a registration statement with the SEC on Sept. 15, covering \$55,000 of 66 convertible subordinated debentures, due 1974, and 5,500 shares of common stock. These securities are to be offered for public sale in units, each consisting of \$500 of debentures and 5 shares of stock. The public offering price of the units and underwriting terms are to be supplied by amendment. Lehrman Brothers is the underwriter. Since the company's organization in 1959 it has been engaged primarily in the development and testing of the "Orco Process", for the secondary recovery of oil and until 1958 it had no revenue. The most widely-used secondary recovery method is "water flooding." The Orco Process, according to the prospectus, is essentially the addition of controlled amounts of carbon dioxide to the fresh or salt water used in the early stages of a water flood. Net proceeds of this finalcing is intended to be used, to the extent of about \$300,000, to acquire additional properties for secondary recovery operations. The remaining proceeds will be added to general funds of the company and will be available for general corporate purposes including primarily development of its properties for operations utilizing the Orco Process. Additional amounts will be required for such development and further financing within the next year may be necessary.

Ill., were announced on Sept. 10 by this corporation. Two additions are contemplated—one to be constructed this fall and the other in the early Spring of 1960.

The larger addition will be used to house expanded facilities for the use of fiberglass in the corporation's products, according to W. C. Scott, President. He said that the success of fiberglass hoods for outboard motors and shrouds for lawn mowers has indicated further applications of the material for outboard use as well as Cushman vehicles and other products of the corporation. The expansion of factory facilities will be begun in the Spring of 1960.

The second addition which will be started shortly will involve approximately 10,000 square fact of floor space and will house engineering and experimental facilities. More intensive work on the corporation boat and accessories program will be carried on in Waukegan, work that until now has been carried on in limited quarters in Naples, Fla. Mr. Scott emphasized that this program does not envision Cutboard Marine's entering the field of outboard boat production.

Boat design and the over-all performance of boat and engine are so closely related as to warrant a considerable step up in this program, Mr. Scott explained. Accessories now being offered outboard owners as well as some in the planning stage, will require facilities for testing and evaluation. Also centered in Waukegan will be experimental work in the use of glass and resins as well as evaluation of manufacturing techniques in this field.—V. 189, p. 2037.

Pillsbury Co.—Plans Venezuela Mill—

Pillsbury Co.—Plans Venezuela Mill—

The company plans to build a flour mill in Maracaibo, Venezuela. It is the company's first capital investment outside of the North American continent, Paul S. Gerot, President, announced on Sept. 8. The cost will be \$2,000,000 to \$2,500,000.

It will be a joint venture under a partnership agreement with a group headed by Eugenio Mendoza. The Mendoza Group is engaged in industrial development in Venezuela and holds interests in cement, paper, feed, construction materials and heavy equipment.

The mill, with a capacity of 3,300 hundredweight of flour a day. will serve the five or six states in western Venezuela, and will get under way in about 90 days.

Ben Greer, Executive Vice-President of the industrial area, told shareholders also of Pillsbury's entry into a technical assistance agreement with a Guatemalan mill to produce Pillsbury brands to specifications of the Minneapolis company. In Guatemala, Pillsbury will provide wheat and the technical know-how.

Reviewing the status of the company's overseas operations, which have made Pillsbury the world's largest flour exporter, Mr. Greer said that the last several years had brought on the disappearance of certain foreign markets and diminished opportunities in others. He said that much of this instability had been caused by the construction of flour mills in countries that formerly imported much or all of their flour.

After two consecutive years of record earnings, Mr. Gerot said that it would be difficult to match the dimensions of these earnings in the 1960 fiscal year. He estimated that the company's capital expenditures would be at least \$10,000,000 in the next year, not counting the remaining amounts for the refrigerated products plant under construction at New Albany, Ind. Ground also was broken this spring for a feed plant in Jasper, Ala., to be in production in 1960. "New York Times".—V. 189, p. 1470.

Reichhold Chemicals, Inc.—Swiss Affiliate to Expand

Reichhold Chemicals, Inc.—Swiss Affiliate to Expand Reichhold Chemic A. G., Swiss affiliate, is building a phthalic anhydride plant at Hausen bei Brugg, Switzerland, it was announced on Sept. 16 by Henry H. Reichhold.

The new \$2,500,000 plant, with a production capacity of 10,000 tons annually, will be Reichhold's ninth phthalic anhydride facility and is scheduled to go on stream early in 1960. RCI is currently operating PA plants at Detroit, Mich., and Azusa, Calif., and construction is nearing completion at the firm's third domestic unit at Elizabeth, N. J. The company also produces phthalic anhydride in Australia, Canada, England, Prance and West Germany.

Phthalic anhydride is used principally in the manufacture of polyester and alkyd resins, and various plasticizers.

Construction of the new phthalic plant is part of an over-all three-year, \$5,000,000 expansion at the Swiss facility, which, in turn, is but one step in RCI's current world-wide expansion program,—V. 190, p. 1074.

Republic Aviation Corp.—Underwater Lightning Device

A device that creates "underwater lightning" to convert electrical energy into mechanical power without the use of electrical motors of any kind was revealed by this corporation on Sept. 2.

The "spark bomb," as it is called by the company's Research engineers stores up electrical energy and then within 40 millionths of a second releases it with a force equal to 6,000 horsepower, said Adolph Kastelowitz, director of manufacturing research for Republic. This energy, he said, is being used experimentally for certain metal-forming operations that normally employ conventional motor-operated bydraulic press equipment.

"We are working toward eventual development of our device as a

"We are working toward eventual development of our device as a standard machine tool," Mr. Kastelowitz said. "It is very possible that such a tool, costing about \$50,000, will replace the conventional hydraudic presses that run about half a million dollars apiece. Besides,

Tape-Controlled Machine Tools Air Jet Output-

Completion, three weeks ahead of schedule, of the Air Force's first automatic, all-weather fighter-bomber—the F-105 D—was on Sept. 10 attributed in part to full-time use of one of the country's largest batteries of tape-controlled automatic machine tools.

Corporation officials said five "mammoth" tape-operated machines representing an investment of more than \$2,000,080 were responsible for market over-all savings in current production of F-105 "B's" and "D's." James J. Childs, who is directing the program, said that tooling and machining costs savings have averaged 75% through the application of "numerical control," as it is officially known. "On machining costs, this kind of control saves us between 65% and 85%, and on tooling, the costs run about 60% below that for the conven-

machining costs, this kind of control saves us between 65% and 85%, and on tooling, the costs run about 60% below that for the conventional semi-automatic methods," he said.

Earlier this year Republic put its fifth numerically controlled machine into production use. The automatically controlled machine into production use the automatically controlled machine tool battery, which now consists of two profilers, two skin mills and a five-axis profiler, is generally believed to be the largest such installation on the East Coast and one of the most diversified in the country. This has been recognized by the Air Porce which has designated Republic as a Director Center. This means that Republic furnishes tapes for companies, primarily in the East Coast, that lack their cwn tape-processing facilities.

The company said it has plans to extend the use of these tape-controlled machines to other manufacturing activities. These include spotwelding, jig boring, lofting, drilling and turning.

Designs New Missile Case for Solid Fuels—

Designs New Missile Case for Solid Fuels-

A major technological advance in the manufacture of solid fuel rocket motor cases was claimed by this corporation on Sept. 16.

The company reported that a fabricated missile engine casing made of low-alloy steel had successfully withstood stresses of more than 250,000 pounds per square inch, which represents tensile yield strength some 30% greater than that of similar-size operational casings made by conventional methods.

The rocket motor casing developed by Republic's Missile Systems

by conventional methods.

The rocket motor casing developed by Republic's Missile Systems Division engineers consists of a series of laminated inner and outer rings of steel, "quenchsized" (tempered) to increase strength and dimensional accuracy. The rings are overlapped longitudinally and joined by an adhesive. Conventional processes call for one-piece velded construction requiring expensive heat treating and welding equipments and processes.—V. 190, p. 774.

Resistoflex Corp.—10-Cent Cash Dividend—

Edgar S. Peierls, President, in a letter dated Sept. 4 to stockholders,

"Last June, in effecting the distribution of one new share of Resistoflex common stock for each four shares held, the directors announced their intention of declaring a modest cash dividend in the near future on the larger number of shares which would then be outstanding

outstanding.

"At their September meeting, the directors declared an initial quarterly cash dividend of 10 cents a share, payable Sept. 30, 1959, to stockholders of record Sept. 15. Furthermore, they have indicated that, as a matter of policy, these regular cash dividends will be supplemented by additional stock distributions as warranted by earnings, thereby continuing the program of conserving cash for future expension. expansion.

expansion.

"Sales for fircal 1959 were at a new high level, as was the year-end backlog of unfilled orders, and operations during the final quarter established new records in respect to earnings as well as orders and shipments. From this statement you may infer that earnings for the year as a whole, while perhaps not establishing a new record, will be well ahead of those of the prior year, with a favorable trend established pointing towards further growth and progress."—V. 190, p. 916.

Reynolds Engineering & Supply Inc.—Merger-

The directors of this corporation have voted to acquire through an exchange of stock the Intercoastal Hotel & Land Corp., it was announced on Sept. 15 by William Pearlman, President, Reynolds Engineering & Supply Inc. is located in Baltimore, Md., and is engaged in the construction, remodeling and improvement of residential and

Reynolds Metals Co .- "House of Ease" Projects-

This company has launched aluminum "House of East" projects with builders in 65 communities coast to coast in its drive to introduce aluminum housing in 160 major cities, David P. Reynolds, Executive

Vice-President, disclosed on Sept. 11.

Like "House of Ease" models across the nation, the Richmond (Va.) house was built by a prominent local builder, Craig-Neil Corp., and features a package of some twenty aluminum building products which the company says will save homebuyers up to \$6,000 in upkeep over a 30-year period.

"House of Ease" models contain about 2,500 pounds of aluminum.

over a 30-year period.

"House of Ease" models contain about 2,500 pounds of aluminum, as compared with the national average of 40 pounds per house.

Reynolds estimates that less than 500 aluminum homes were built in 1958 but predicts that some 15,000 models featuring aluminum exteriors will be erected this year.—V. 190, p. 976.

Ritter Co., Inc.—To Market New Audio Analgesiac—

One of the promising devices to come out of the Ritter Company's aggressive "Search, Research and Development" program is "Audio Analgesiac," developed by a Boston dentist in cooperation with a prominent acoustical research organization, according to a statement issued on Aug. 28 by F. Ritter Shumway, President of Ritter Co., Inc. As the name implies, Audio Analgesiac produces sounds which whem heard by a dental nation through a pair of high fidelity earphones. heard by a dental patient through a pair of high fidelity earphones, block out the sensation of pain in about $\mathfrak{SO}_{\overline{v}}$ of the more than 2,000 cases in which the equipment has been used. Audio Analgesiac has been employed successfully in such ordinarily painful procedures as tooth extraction.

"Much work still needs to be done," Mr. Shumway said. "Only the initial prototypes developed by the inventors are now in existence, and consequently many of the mechanical and electronic components and consequently many of the mechanical and electronic components have yet to be tested thoroughly. Acceptance of the equipment by the dental profession also remains to be gained. We do not expect to have any commercial version of the Audio Analgesiac on the market before the early part of 1960," Mr. Shumway continued, "and that target date will be possible only if all goes smoothly."

While the Ritter Company has exclusive rights for marketing Audio Analgesiac. Mr. Shumway pointed out that, unlike the Airotor and other products of the company the pow equipment can be demonstrated.

other products of the company, the new equipment can be demonstrated only by a licensed dentist, and therefore the company believes that sales will probably develop at relatively slow rate. In addition, because of the heavy expenses that will be incurred in its introduction, it is not felt that company earnings will be materially affected for at least another year.—V. 189, p. 2831.

Robin-Bale Golf & Country Club, Inc., Washington, D. C .- Files With SEC-

The corporation on Sept. 3 filed a leter of notification with the SEC covering 250 shares of common stock (no par) to be offered at \$1,000 per share, without underwriting.

(Geo. D.) Roper Corp .- New Product-

The almost overnight success of Roper's new built-in Rotis-O-Grill (a combination of rotisserie-broiler-griddle) has necessitated a stepup in volume production, according to E. Carl Sorby, Vice-President of Geo. D. Roper Sales Corp., Kankakee, (Ill.) appliance manufacturer. V. 187, p. 1547.

Royal Corp., San Carlos, Calif.—Acquisition—

The corporation on July 28 announced that it has acquired Berger-Coastwide Construction Co. of San Carlos, Calif., which will be operated as a division of Royal Corp. Concurrently, the announcement stated, William B. Cusack was elected President of Royal Corp. and Charles H. Berger was elected Vice-President and Manager of Operations. S. Ackermann, former President, will continue to serve the corporation

in the capacity of Vice-President and Treasurer.

Berger-Coastwide Construction Co. had prior to the acquisition operated as a joint venture of several corporations controlled by Mr. Cusack and Mr. Berger and had been active in contracting, engineering, excavating, grading and paving operations in the San Francisco Bay Area. Berger-Coastwide also owned interests in real estate income property in Minnesota. The announcement stated that Royal Corp. property in Minnesota. The announcement stated that Royal Corp.

would continue and expand these activities.

In addition, the announcement stated, Royal Corp. intends to engage in the construction business as a General Contractor, and, as a complementary activity to commence land development and residential complementary activity to commence land development and residential building. As its first step in this direction, the company has purchased a tract of 120 acres near San Jose, Calif. The improvement work on this property will be done by Royal Corp.'s equipment and staff, and plans are now being completed for the development of approxi-

mately 450 sites.

Royal Corp. was formed in 1954 and engaged in the mining business for several years. The corporation's Royal Mine at Indian Creek, Utah, produced 20,889 tons of uranium ore valued at \$594,215 prior to being closed in November 1956. Recently, the Indian Creek property was sold to Security Uranium & Oil Co., Inc., subject to retention of a royalty interest. Security is now conducting mining operations on the property.

of a royalty interest. Security is now conducting mining operations on the property.

At the end of 1958, Royal Corp. had 909 shareholders residing in approximately 40 states. Financial statements showed total assets in excess of \$60,000 as of Dec. 31, 1958. The effect of the acquisition of Berger-Coastwide Construction Co. shows on a pro forma basis total assets in excess of \$900,000 as of April 30, 1959.

Concurrently with the acquisition, the announcement concluded, Royal Corp. has reclassified its capital stock by combining 20 shares of the old 5c par value stock into 1 share of new \$1 par value common stock. Royal's new capital structure now consists of 1,000,000 authorized shares of \$1 par value common stock and 100,000 shares of \$10 par value preferred stock. Since there are outstanding approximately 245,000 shares of the new common stock, there remains authorized and unissued stock available for the acquisition of new business ventures that may prove attractive, the announcement concluded.—V. 185,

Rozee Bonus Club, Inc.-Statement Withdrawn-

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us, based on telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Sept. 19, clearings from all cities of the United States from which it is possible to obtain weekly clearings will be 8.5% above those for the corresponding week last year. Our preliminary totals stand at \$27,411,274,879 against \$25,266,804,019 for the same week in 1958. At this center there is a gain for the week ending Friday of 19.6%. Our comparative summary for the week follows:

First Federal Reserve District Rectan

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday, and the Saturday figures are not available at time of going to press. Accordingly, in the above, the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below we are able to give the final and complete results of the week previous — the week ended Sept. 12. For that week there was a decrease of 8.7%, the aggregate of clearings for the whole country having amounted to \$19,477,618,611 against \$21,330,726,654 in the same week in 1958. Outside of this city there was a decrease of 13.0%, the bank clearings at this center having registered a loss of 4.4%. We group the cities

according to the Federal Reserve Districts, in which they are located and from this it appears that in the New York Reserve District (including this city) the totals show a falling off of 3.8%, in the Boston Reserve District of 11.2% and in the Philadelphia Reserve District of 10.7%. In the Cleveland Reserve District the totals are smaller by 15.9%, in the Richmond Reserve District by 17.9% and in the Atlanta Reserve District by 14.8%. The Chicago Reserve District suffers a loss of 10.8%, the St. Louis Reserve District of 0.3% and the Minneapolis Reserve District of 19.7%. In the Kansas City Reserve District there is a decrease of 19.2%, in the Dallas Reserve District of 11.3%, and in the San Francisco Reserve District of 17.8%.

said the increase in earnings over the first quarter of 1959 "confirms the belief expressed in our first quarter report that a turning point in our profit picture has been reached.

"We see no reason to change the optimistic viewpoint expressed in our report for the first quarter," he added.

Operating revenue for the first six months of 1959 totaled 68.-934,137 compared with \$8,899,768 a year ago. Consolidated net earnings for the first half were \$197.825 compared with \$484,423 in 1958. Net income per share, based upon 388,000 outstanding on June 30 this year against 364,000 for the same period a year ago, was 51 cents in 1959 and \$1.33 in 1958.

Earnings per share during the period increased from 13 cents in the first quarter of 1959 to 38 cents in the second quarter.—V. 189, p. 2724.

Servo Corp. of America—Registers With SEC—

This corporation, located at 20-20 Jericho Turnpike, New Hyde Park, Y., filed a registration statement with the SEC on Sept. 11, 1959 covering \$1,060,000 of convertible subordinated debentures, to be offered for public sale at 100% of their principal amount. Ira Haupt & Co. is listed as the principal underwriter; and the underwriting terms are

The registration also includes 67,000 shares of common stock, to be offered pursuant to the company's Key Employee Restricted Stock

The company is now engaged principally in the field of manufacturing and designing various equipment for industrial, military and educational applications utilizing skills in infrared, electronics, data processing, servo devices and controls, instrumentation, optics, electro-mechan-

ing, servo devices and controls, instrumentation, optics, electro-mechanical plotting and measurement, computing, and feed-back controls. Later this year its operations will be consolidated with its manufacturing operations in a single leased plant now being completed at New South Road and Karen Lane, Hicksville, L. I., New York.

Net proceeds of the sale of the debentures will be used as follows: \$300,000 for working capital; \$200,000 for plant relocation and consolidation at the Hicksville site and for expansion of equipment; \$300,000 for increased development and research with particular attention to civilian products; and \$100,000 for sales promotion and related activities.—V. 190, p. 917.

Servomechanisms, Inc.-Thermoelectric Research-

The corporation's Santa Barbara Research Center is conducting research on high efficiency thermoelectric materials and on magnetic domain computing techniques for the Army-Navy Instrumentation

Program, it was announced on Sept. 1. This work is sponsored by the El Segundo Division of Douglas Aircraft Co., Inc. through funds allocated by the Office of Naval Research.

The announcement further states: "The moelectric research is concentrated on the design of materials which will have relatively high conversion efficiency and the design of devices to utilize them. A substantial amount of this effort is directed toward obtaining materials with the capability of retaining thermoelectric properties at

terials with the capability of retaining thermoelectric properties at very high temperatures.

"The mechanical construction of a thermoelectric generator is extremely critical and a sizable portion of this program has been devoted to this phase of the effort. A unique washer type configuration has been developed, and this development shows promise, particularly for high outputs levels.

"The use of magnetic domain interaction in thin evaporated films has been an approach to digital logic and memory elements worked out on the ANIP program by Servomechanisms, Inc. The use of magnetic domain interaction represents an innovation in this field, and one which should do much to miniaturize digital circuitry and increase it reliability. increase it reliability.

increase it reliability.

"Magnetic domain memory and logic elements are fabricated by high vaccum thermal evaporation techniques which have been developed by Servomechanisms, Inc. over the past 10 years. These techniques enable the evaporation of thin films of conducting, magnetic, and dielectric materials. Digital logic and memory elements can be fabricated by properly laminating these three types of films.

"An ANIP team composed of Douglas Aircraft Co., Inc., Servomechanisms, Inc., Varo Manufacturing Co., Inc., and Litton Industries is developing the RV-2 airborne digital computer based on the principal of magnetic domain interaction. This computer is scheduled for completion in approximately two years."

The effort at the Santa Barbara Research Center is divided into three phases: Basic Research, Applied Research and Research Engineering. Basic Research consists mainly of materials investigation; Applied Research Engineering readies a new device for processing by one of the production divisions.

one of the production divisions. Receives Hughes Aircraft Orders-

During the last four months ended July 31, 1959, this corporation received orders in the amount of \$787,143 from Hughes Aircraft Co. The majority of these orders were for spare parts for SMI's Central Air Data Computers and Barometric Altitude Controllers being supplied to Hughes by SMI.—V. 190, p. 1074.

Shell Oil Co .- Granted Bank Credit-

The company on Sept. 16 announced that it had reached a stand-by loan agreement in the amount of \$100,000,000 with seven banks. H. S. M. Burns, President, said the money would be used for general corporate purposes and capital expenditures.

The agreement was arranged through the Irving Trust Co. The other banks are the First National City Bank of New York, Morgan Guaranty Trust Co., Chemical Corn Exchange Bank, Hanover Bank, Bankers Trust Co., and Bank of America, National Trust and Savings Association.—V. 189, p. 2744.

Shield Chemical Ltd., Toronto, Canada-Files With Securities and Exchange Commission-

The corporation on Sept. 8 filed a letter of notification with the SEC covering 95,000 shares of capital stock (par 10 cents) to be offered at \$1.50 per share, through Peters, Writer & Christensen, Inc., Denver,

The proceeds are to be used to purchase and install manufacturing equipment, control and test equipment; for advertising and for working capital.

Shulton, Inc.—Enters Hair Coloring Field-

George L. Schultz, President, on Sept. 15, announced the acquisition of Tecnique, Inc., a midwest manufacturer and distributor of hair coloring products, presently located in Minneapolis, Minn.

Sig Pass, who as head of Tecnique originally developed Tecnique Color-Tone, a hair color cosmetic, will continue his present duties as President of Tecnique, Inc., subsidiary of Shulton, Inc.

The transaction was an outright purchase for cash. There was no disclosure of the amount involved or of the Tecnique sales figures. Tecnique Color-Tone is distributed nationally in most key markets. The products are sold at retail in department stores, independent and chain drug stores, and are distributed for professional use in beauty salons.—V. 186, p. 2801.

Simon Hardware Co.—Registers With SEC-

This company, located at 800 Broadway, Oakland, Calif., on Sept. 14 filed a registration statement with the SEC covering \$800,000 of 7% sinking fund subordinated debentures, due 1971, and 80,000 shares of common stock. These securities are to be offered in units consisting of \$1.000 principal amount of debentures and 100 common shares. The public offering price of the units and underwriting terms are to be supplied by amendment. J. S. Strauss & Co., York & Co., and Mason Brothers are listed as the underwriters.

Brothers are listed as the underwriters.

Organized in 1955, the company through a subsidiary, is engaged in the retail sale of a diversified line of consumer goods in Oaklend. Net proceeds of this financing will be used to open one or more additional retail stores in Northern California. Any balance remaining will be added to general funds and used for such corporate purposes as the management may determine.

Texas Instruments Inc.—International Semiconductor Marketing Program Launched-

This corporation has expanded its semiconductor marketing coverage within the continent of Europe with the signing of four European distributors. This is another step further toward making TI semi-conductors readily available on an off-the-shelf tasis throughout the world within the next few years.

Cecil Dotson, Chairman of the Board of Texas Instruments Ltd., announced the appointment of Ditz Schweitzer in Copenhagen, France Nucléaire Electronique in Paris, A. B. Gosta Backstrom in Stockholm, and Fabrimex A. G. in Zurich as executive TI distributors within their respective countries.

Mr. Dotson stated that the European transistor market is rapidly expanding. With war recovery virtually complete and aided by the stimulus of the European Common Market, Europe is fast becoming receptive to greater specialization and mass production which will create many new markets for TI transistors and other allied semi-

conductor products.

Headquarters for the operations of Texas Instruments new EurOps program are in Bedford, England and Paris, France. Bedford is also the home of TI's semiconductor subsidiary currently manufacturing and marketing products to sterling areas of the world.—V. 190, p. 1020.

Texstar Corp.—To Buy Texas Calgary Firm—

Texastar Corp.—To Buy Texas Calgary Firm—

Officials of this corporation and Texas Calgary Co., on Sept. 17 made public a proposal under which Texstar will acquire all of the assets, and assume the liabilities of Texas Calgary. Texstar proposes to purchase the assets in exchange for snares of its own common stock which will then be distributed to Texas Calgary's stockholders at the rate of one share of Texstar stock for eight shares of Texas Calgary. Proxy statement are being mailed to all Texas Calgary stockholders, with voting on the proposal slated for a special meeting at the company's office in Wilmington, Del., Sept. 30. There are 8,597,409% shares of Texas Calgary stock outstanding.

Texas Calgary's board of directors recommends approval of the sale because it will combine the diversified assets and properties of Texstar with Texas Calgary's present resources, which are not sufficient to permit diversification and expansion. Without such expansion, the future of Texas Calgary is limited, according to the board.

Texas Calgary is in the business of exploring for, acquiring interests in and developing oil and gas properties, and in the production and sale of crude oil and natural gas. It owns and operates a pipe-line terminal and terminal tank storage facilities near Dover, Del., which supply the near-by Dover Air Force Base.

The company also owns and operates a small refinery at Carrizo Springs, Tex. Nonproducing leaseholds owned include 9,262 acres in Texas 1,640 acres in New Mexico, 460 acres in Utah 15,045 acres in

In the first six months of 1959, the company had net oil production of 89,073 barrels and net gas production of 116,266 million cubic feet. The company's stock is listed on the American Stock Exchange.

The Texstar Corp. is a new corporate entity resulting from the recent consolidation of six separate concerns with varied interests.

Texstar intends to put the assets and property of Texas Calgary into its petroleum division.

The various businesses of Texstar are operated on a divisional basis, except two which are operated as subsidiaries. Operations in-

Petroleum division holds undivided oil and gas interests plus options for undivided interests on several hundred thousand acres in Alaska, Canada, Latin America and the U.S. It is also engaged in the secondary recovery of oil by water flooding in several locations in the U.S.

Contek division uses, and licenses others to use, the lift-slab build-

ing method of construction, plus processes for pre-stressing concrete. Cyclomatic division has exclusive rights to manufacture and market the Cyclomatic freezer, which is a vertical plate freezer for the frozen foods industry

Essar Land and Cattle division operates five ranches encompassing approximately 20,006 acres of land owned in fee and additional 25,000 acres leased on a renewal basis. Cattle being raised include registered purched Angus, certified Brangus (from registered Angus cows and registered Brahma bulls) for breeding purposes, and approximately 4,200 head of cattle for market.

ztec Ceramics. Inc., is and sale of glazed ceramic wall and floor tile for both the home and institutional building market.

United Cities Gas Co.—To Consolidate and Incr. Debt Arthur K. Lee, Chairman of the Board, in a letter to the shareholders on Sept. 9, said in part:

Arthur K. Lee, Chairman of the Board, in a letter to the shareholders on Sept. 9, said in part:

"Four insurance companies presently own varying amounts (totaling \$2,908,600) of 15 separate bond issues of the former subsidiaries, now Divisions of United Cities Gas Co. The directors of the company deem it advisable to consolidate these 15 small issues of bonds and to raise additional funds by means of a new single issue of \$3,500,000 of 5% first mortgage bonds of the company. We have secured letters from each of the four insurance companies in which they have agreed to exchange their present bonds and purchase additional bonds, with the result that the company will have outstanding a single new issue of first mortgage bonds in the amount of \$3,500,000. The new bonds (together with future issues of bonds) are to be secured by a first mortgage on substantially all assets of the company, which will replace the present six separate mortgages.

"The sinking fund of \$105,000 per year provides for the retirement of \$2,415,000 principal amount of bonds during the years 1961 through 1983. This is substantially less than annual cash requirements for retirement of present bonds, the entire \$2,908,600 face amount of which must be retired under the terms of the Indentures of Mortgage securing same by the maturity dates thereof which range from July 1, 1970 to April 1, 1978. Sinking fund requirements on present issues are in excess of \$135,000 this year, and are increasing annually.

"Among other obligations which your company has outstanding in addition to the first mortgage bonds referred to above, there are in the hands of the public \$112,900 principal amount of collateral trust bonds due April 1, 1964, and \$354,900 principal amount of collateral trust bonds and income notes shares of the company's cumulative preferred stock on a par-for-par basis. The company now is authorized to issue 99,800 shares of cumulative preferred stock and 300,000 common shares. To have a sufficient number of authorized shares for the proposed e

United Industries Co., Inc.—Convertible Stock Offered -Dempsey-Tegeler & Co. on Sept. 10 publicly offered 100,000 shares of 60-cent cumulative convertible preferred stock at par (\$8.50 per share).

The preferred stock is convertible into common stock of the company at any time, unless previously redeemed, share for share (subject to adjustment under certain conditions). The stock is entitled to a minimum sinking fund of \$50,000 annually, commencing in 1962.

The company may at any time after April 30, 1962, redeem the whole, or from time to time any part, of the share of the preferred stock at the time outstanding, upon at least 20 days' notice, at the redemption price of \$9.50 per share, plus, in each case, accrued and unpaid dividends.

Shares of the preferred stock may also be redeemed through operation of the sinking fund on or after May 1, 1962, at the redemption price of \$9 per share, plus accrued and unpaid dividends to the redemption date.

PROCEEDS—The net proceeds to the company from sale of the preferred stock will be approximately \$730,000. Of this amount, approximately \$525,000 will be used to pay the cost of a grain elevator, including repayment of bank loans amounting to \$125,000 incurred in connection with construction. The balance of the proceeds will initially be added to the company's general funds and will be available for working capital or for use in connection with expansion of its stortage facilities.

BUSINESS—The company was incorporated under Texas law on March 9, 1956, and has its office and place of business at 1235 shadowdale. Houston 24, Texas. The company's business consists primarily of grain warehousing and since its incorporation it has been congaged almost entirely in the warehousing and storage of grain under contract with the Commodity Credit Corporation, an agency of the

United States Government. It has a total of six storage buildings and four storage tanks having an aggregate capacity of 5,550,000 bushels. There is presently under construction a grain elevator which will have capacity of 575,000 bushels. acity of 575,000 bushels

U. S. Industries, Inc .- Forms British Unit-

This corporation has added to its group of foreign subsidiaries by the formation of a new company in England, called U. S. Industries, Inc. (Great Britain) Ltd.

(Great Britain) Ltd.

This new European company was established to initially co-ordinate the European activities of two of USI's principal divisions—The Clearing Division and the International Division.

Clearing is a leading manufacturer of metal forming presses and other machine tools and has maintained a branch office in the United Kingdom since 1952. Since 1945, it has had an agreement with Vickers-Armstrongs, Ltd., for the manufacture of its equipment in England and has similar arrangements with companies in Italy and

United States Plywood Corp.—Earnings Rise Forecast

Earnings for the current fiscal year are expected to reach a range of \$4.50 to \$5 a share, Gene C. Brewer, President, told the annual steckholders' meeting on Sept. 16.

Operating earnings in the last fiscal year were \$4.31 per share.

Mr. Brewer attributed the stability of profits to additional manufacturing facilities and increased sales through the company's expanded distribution system which, he said, "has been an important factor in maintaining a profitable picture even in the few of adverting and the same consistency are said to the same consistency are same co distribution system which, he said, "has been an important factor in maintaining a profitable picture even in the face of adverse conditions in teh fir plywood industry." He forecast that the company's annual sales, which increased 19% last year, will show an increase of more than 10% in the current year.

Expansion and modernivation, he said, will continue in the current year with expenditures of approximately \$11,000,000. "These funds," he said, "will come from depreciation, depletion and profits. No additional financing will be required for this program."

In the continued expansion of the company's sales activities, said Mr. Brewer, "this year we will add approximately ten new branches, replace five facilities with larger quarters and enlarge four other units."

The most important new manufacturing facility, he said, will be a particle board plant in South Boston, Va., to supplement the California production of the company's patented three-play particle board Novoply.

"Also of major importances" he additional important in the company's patented three-play particle board Novoply.

"Also of major importance," he said, "is a new and modern door and prefinishing facility at our Algoma, Wis., hardwood plant. In addition, we are enlarging our prefinishing and printing facilities at Orangeburg, S. C."

He also announced that the company's research and development activities are receiving constantly greater emphasis.—V. 190, p. 818.

This corporation, located at 4501 Woodward Ave., Detroit, Mich., on Sept. 15 filed a registration statement with the SEC covering \$750,-000 of 61/2% sinking fund debenures, due Oct. 1, 1974 (with common stock purchase warrants attached), and 282,760 shares of common stock

stock purchase warrants attached), and 282,760 shares of common stock.

The debentures are to be offered for public sale at 100% of principal amount. The prospectus lists Baker, Simonds & Co., Inc., and Wm. J. Mericka & Co., Inc., as the principal underwriters; and the underwriting terms are to be supplied by amendment.

The 282,760 common shares are to be offered for sale by the Estate of James Vernor, deceased. The underwriters will purchase from the Estate 15,000 shares of the company's 5½% convertible preferred stock and 267,390 shares of common stock. Of the 282,760 common shares, 267,390 are those so sold by the Estate to the underwriters, and 15,370 shares arise from the conversion by the underwriters of 2,255 shares of the preferred stock. The remaining 12,745 preferred shares are being purchased by the company from the underwriters at the \$51 per share redemption price. The issuing company will not receive any of the proceeds of the public sale of common stock by the Estate. The underwriting terms of the common stock offering also are to be supplied by amendment.

The company manufactures a soft drink which is sold under the name "Vernora." Of the net proceeds of its sale of debentures, about \$650,000 will be used to redeem the 12,745 shares of preferred stock to be purchased by the underwriters from the Estate. Under the underwriting agreement, the underwriters are required to convert the remaining 2255 preferred, shares into 15,370 common shares. The halance of the net proceeds of the sale of debentures will be

the remaining 2255 preferred, shares into 15,370 common shares. The balance of the net proceeds of the sale of debentures will be added to working capital.

According to the prospectus, the Estate of James Vernor owns 267,390 shares (54.51%) of the outstanding common stock and all of the 15,000 preferred shares.

Vulcan Materials Co.—Registers With SEC—

This company, located in Mountain Brook, Ala., on Sept. 15 filed a registration statement with the SEC covering 230,000 shares of its common stock

common stock.

According to the prospectus, Vulcan has entered into agreements contemplating the issuance of the 230,000 common shares and the payment of \$560,000 in cash to the partners of W. E. Graham and Sons for substantially all the business and assets of that partnership and to Wegco Equipment Rentals, Inc., for substantially all of the business and assets of that corporation. Since some of such persons receiving shares of Vulcan stock may offer for sale all or part of such shares, the company seeks to register the stock.

The Graham partnership is engaged in the commercial aggregate and general construction businesses. Its principal aggregate properties are stone quarries located at Winston-Salem and Mt. Airy, N. Car., and its construction business, which is conducted largely in North Carolina, consists primarily of the construction of highways and bridges. All the outstanding Wegco stock is owned by the Graham partnership.

All the outstanding Wegco stock is owned by the Graham partnership. Wegco owns and leases to the partnership substantially all of the equipment used by the latter in its construction business as well as certain items of equipment used in its aggregate operations.—V. 190, p. 919.

Wey-Do Manufacturing Co., Inc.—Stock Offering Suspended by Securities and Exchange Commission-

In a decision announced Sept. 15, the SEC ordered the permanent

In a decision announced Sept. 15, the SEC ordered the permanent suspension of a Regulation A exemption from registration under the Securities Act of 1933 with respect to a public offering of stock by this corporation, because of misleading and inadequate statements in its notification and offering circular.

The company was organized in 1955 to merchandise a preparation claimed to be able to control dandruff and excessive hair loss. Prior to the filing of its notification in August 1957 it had sold stock to about 73 stockholders, of whom 61 resided in New York State and 12 resided in five other states and the District of Columbia. The notification proposed the sale of an additional 1,000 shares at \$50 per share, the offering to be made first to existing stockholders.

According to the Commission's decision, Wey-Do's offering circular is admittedly deficient in that it fails to disclose the amount of expenses of the issuer in connection with the offering, the method by which the securities will be offered, the remuneration of the company's officers and directors, the stock holdings or other interests of directors and officers, the percentage of outstanding securities which will be held by directors, officers and promoters and by the public assuming the entire issue is sold, or the issuer's contingent liability for sales of unregistered stock during the previous year. Furthermore, the offering circular does not contain an adequate statement of the purposes for which the proceeds of the offering will be used or the required financial statements.

Moreover, according to the decision, Wey-Do's notification incorporative treatment of the purposes for which the proceeds of the offering will be used or the required financial statements.

Moreover, according to the decision, Wey-Do's notification incorrectly stated that the securities would be offered for sale only in New York State: and, despite a requirement that the offering circular must be given to all persons to whom a written offer or a sale of the securities is made, the notification stated that Wey-Do did not intend to use an offering circular (although one was included as an exhibit to the notification). exhibit to the notification).

wey-Do requested that it be permitted to withdraw its filing, stating that it no longer wishes to sell any securities and has abandoned its plans to embark on an expanded advertising promotional program. The Commission concluded, however, that Wey-Do had not "demonstrated a responsible attempt in good faith to adhere to the required standards of careful filings," nor were other mitigating circumstances apparent which would warrant granting the withdrawal request. -V. 189, p. 526.

Operating revenues for the 12 months ended June 30, 1959, amounted to \$126,723,632 or 9.7% more than for the previous 12 months. Total operating expenses, including provisions for taxes and depreciation, amounted to \$104,679,371 or 7.8% more than for the 12 months ended June 30, 1958.—V. 189, p. 962.

Zapata Off-Shore Co.—Listing in New York-

The Board of Governors of the American Stock Exchange on Sept. 10 approved for original listing 1,020,337 50c par common shares of this company, which was incorporated in 1954, and is engaged in oil and gas drilling operations in the offshore area, principally the Gulf of Mexico off Louisiana and Texas. Most of the company's drilling, has been conducted under contract for others, but more recently an increasing amount of drilling has been done for its own account. Zapata intends to increase its interest and activity in exploration for its own account through continued participation in farm-out or similar ventures.—V. 190, p. 718.

Zenith Radio Corp.—New Portable Transistor Radios The corporation on Sept. 4 announced the Royal 755 and Royal 710. two new, all-transistor portable radios that were designed and built to produce "big-set" power and "big-set" tone in a compact, portable, 'big-set" package.

L. C. Truesdell, Executive Vice-President in charge of marketing, said both new receivers have an undistorted power output of 275 milliwatts or "power to spare" in almost all operating conditions. He said that they are creatively engineered to tune distant, hard-to-get stations; to operate on trains, planes, boats and in automobiles where less powerful sets fail, and to provide ample volume, without distortion, which Mr. Truesdell said means they can be heard well above the high noise level outdoors.—V. 190, p. 1119.
